

Samir El Karrat Moreno

Based in Warsaw, Poland | +34 611 46 64 34 | samiriyo05@gmail.com | [GitHub](#) | [LinkedIn](#)

Final year (5th year) BSc Student in Maths and Physics at UAB with a GPA of 8.46/10. With 1 year of experience in AI research, including a scholarship, I am passionate about multimodal models, model merging, LLMs and GenAI. I am highly motivated and eager to partake on impactful projects.

Currently looking for graduate job opportunities in Warsaw starting in 2027.

EDUCATION

Bachelor of Science, Double degree in Mathematics & Physics Estimated June 2027
Autonomous University of Barcelona, Spain

- Highly competitive 5 year program, admitting only 20 top students nationwide in Spain. Renowned for its rigorous and interdisciplinary curriculum. My score is 8.46/10.

University of Warsaw, Erasmus student October 2026 - June 2027
University of Warsaw, Poland

- Relevant coursework: Deep Learning, Statistical Machine Learning, Statistical Data Analysis 2, Big Data Mining and Processing.

UC Berkley, EAP Reciprocity Student August 2024 - May 2025
University of California, Berkeley (United States)

- Supported by the UAB Exchange Programme and the University of California Education Abroad Program (UCEAP) I studied abroad at UC Berkeley, California for the 2024-2025 academic year.

PUBLICATIONS

“Rethinking Expert Training for Model Merging with Prompt Learning” [\[arXiv:2607.24465\]](https://arxiv.org/abs/2607.24465) July 2026
Christos Georgakilas, Aniello Panariello, Samir El Karrat Moreno, Simone Calderara, Dimosthenis Karatzas, Joost van de Weijer

WORK EXPERIENCE

AI Research, IDEAS Intern September 2026 - Present
IDEAS NCBR, Warsaw

- During my Erasmus in University of Warsaw I will be collaborating alongside Bartłomiej Twardowski (head of the Computer Vision Team) and Kamil Deja (head of GenAI Team) on various of their current projects involving Continual Learning and Model Merging.

AI Research Intern, Elena Maseras Fellowship October 2025 - September 2026
Computer Vision Center, Barcelona

- Highly competitive fellowship (under 14% acceptance rate).
- Contributed to the paper “Rethinking Expert Training for Model Merging with Prompt Learning” by designing and running both main and ablation studies, evaluating method efficiency, and authoring the corresponding experimental sections.
- Researched Model Merging with a focus on theoretical foundations and mathematical interpretability, alongside Generative AI and Continual Learning with multimodal models (CLIP, LLaVA) and LLMs (Llama, T5). Implemented PyTorch-based pipelines to train, fine-tune, evaluate, and merge models, modifying architectures, objectives, and training procedures to reproduce literature SOTA techniques and support original experiments.

QuantumDataInc, Research Intern

January 2025 - May 2025

Berkeley, United States

- Contributed to Yuki Nagasako's startup through the Skydeck Program. Together with a team of highly motivated UC Berkeley students, I supported the company's product development through theoretical physics modeling and feasibility assessment. Quantum Key Distribution technologies were the main focus of my research.

Skydeck ACE Intern Program

January 2025 - May 2025

Berkeley, United States

- Gained hands-on entrepreneurial skills through workshops, mentorship, and industry insights. Widened my knowledge related to Silicon Valley's VC Landscape through tutoring from renowned investors such as Gregory Lablanc. Other topics include fundraising, branding and marketing.

LANGUAGES

- Native in **Spanish** and **Catalan**
- **English** C2 proficiency certificate + 1 year of experience since living in the US
- Basic **Polish** (currently learning)

SKILLS

- Strong skills oriented towards autonomous problem-solving and critical thinking
- **Python**: Pytorch, torchvision, opencv, tiktoken/sentencepiece, pandas, matplotlib, scikit-learn (academic and professional experience)
- **Git** for managing pytorch projects
- **LATEX Code** for creating scientific reports in both academic and professional contexts
- Basic **SQL** knowledge

VOLUNTEERING & EVENTS

Attended... **Workshop on Multimodal Foundation Models: From Research to Innovation** July 2026

Presented my work at... **CVC Talent Day** May 2026

Volunteered at... **Deep Learning Barcelona Symposium (DLBCN2025)** December 2025

AWARDS

- **Extraordinary Baccalaureate Award (Baccalaureate score of 9.9/10)** 2022
 - Achieved the Best Score of the 2022 STEM Baccalaureate Class at IES Madina Mayurqa
 - Awarded to the top 2.5% of students who achieved the best average score at the end of Spanish baccalaureate (in Spain baccalaureate corresponds to the last 2 years of high school before university).
- **Youth Talent Program** 2022
 - Provided by URV (Universitat Rovira i Virgili), this program is designed for the top performing students in Spain. In it, I developed advanced mathematical and physics skills which gave great insight on both fields.
